## FULL STACK DEVELOPER

---

Possessing 2 years of experience in utilizing modern frameworks and libraries such as React.js, Next.js, Node.js, MongoDB, and Redux. Demonstrated proficiency in successfully delivering over 7 scalable projects, consistently ensuring alignment with user requirements and exceeding expectations.

## TECHNICAL SKILLS

---

<b>Languages</b>	: JavaScript, PHP, Java, HTML, CSS, TypeScript, Go Lang
<b>Frameworks</b>	: React.js, Express, Node.js, Next.js, React Native, TailwindCSS, Serverless, NestJS
<b>Libraries</b>	: Material, Redux Toolkit, React Router, React Query
<b>Databases</b>	: MongoDB, PostgreSQL, MySQL, DynamoDB
<b>Devops</b>	: AWS, Github, Docker, Jenkins, Vercel, Argo
<b>Dev Tools</b>	: Visual Studio Code, Git, Linux

## EXPERIENCE

---

### Software Development Engineer 2

Acefone Softwares

August 2024 - Present

Gurugram

- Implemented **microservices architecture**, reducing overhead by **85%..**
- Built a **Pub-Sub System with Kafka**, processing **500K+ events daily**.
- Optimized APIs in **Go and TypeScript (NestJS)**, improving response time by **40%**.
- PHP and Laravel for admin panel.
- Refactored frontend with **React.js and Next.js**, cutting deployment time by **60%**.
- Worked on a **telephonic system with Asterisk PBX**, handling **10K+ daily calls**.

### Software Development Engineer

Orufy Technologies

September 2022 - August 2024

Jaipur

- **Monorepo** setup with **Turborepo** and **Nx** for 4+ projects.
- Bot builder with **React flow** to design bot 70% faster.
- Led a team of **5 developers**.
- Streamlined email design with a **drag-and-drop template builder**, reducing design time by **40%** and boosting engagement by **25%**.
- Delivered **5+ scalable projects** using **NestJS, Next.js, and Node.js**.
- Backend with server and **Serverless** Environments with **AWS Lambdas**.
- Developed 4+ plugins for **Shopify** and **Wordpress** applications.

### React.js Developer Intern

Fintricity

January 2022 - August 2022

Remote - London

- Created a Component Library with **Storybook** for 20+ reusable components.
- Migrated a **20,000+ line JavaScript codebase to TypeScript**, reducing bugs by **50%**.
- Implemented **10+ data visualizations** using ReCharts for better analytics.
- Collaborated with a team of 7 developers to enhance project efficiency.
- Optimized application performance, increasing efficiency by **20%**.

## EDUCATION

---

**Dev Bhoomi Uttarakhand Univeristy**  
Bachelor of Computer Application

Dehradun, Uttarakhand  
August 2020 - July 2023

**Vivekanand Intermediate College**  
Intermediate

Almora, Uttarakhand  
April 2019 - March 2020

## PROJECTS

---

### Zenodeck Connect

[Source Code](#)

- Built a real-time customer support chat app with multi-channel support
- Developed an embeddable web chat widget for external websites
- Integrated WebSockets for real-time, bi-directional messaging
- Used React.js for frontend and Nest.js/Node.js for backend
- Managed data with MongoDB for scalable and flexible storage

### Webtonative

- Transformed websites into mobile apps **without coding**.
- Integrated payment gateways for seamless payments, handling 5K+ transactions monthly.
- 50K+ active international clients.
- Tech stack: **Next.js, TypeScript, Firebase, Node.js**.

### E-Commerce Site

[Source Code](#)

- Responsive E Commerce website clone using **Next.js, TypeScript, Tailwind CSS** and **Redux Toolkit**.
- Implemented authentication using **NextAuth**.
- Added user delivery location feature using Geolocation-DB API.
- Created CI/CD pipeline with GitHub and Vercel for automation.

### Snappy - Chat App

[Source Code](#)

- Front-end using **React.js, styled-components, Typescript** .
- Backend with **Node.js, Express** and **MongoDB**.
- **Real-time chat application** with **99.9% uptime** using **WebSockets (Socket.io)**.

### GIF Maker

[Source Code](#)

- Developed a gif maker web app using **React.js**.
- Backend with Node.js, Express and MongoDB.
- Used **Web assembly** and **FFmpeg** for video processing.
- Achieved **100% processing on the client-side**.
