## FULL STACK DEVELOPER

Possessing 3 years of experience in utilizing modern frameworks and libraries such as React.js, Next.js, Node.js, MongoDB, and Redux. Demonstrated proficiency in successfully delivering over 7 scalable projects, consistently ensuring alignment with user requirements and exceeding expectations.

## TECHNICAL SKILLS

**Languages** : JavaScript, TypeScript, PHP, Java, Go, HTML, CSS

**Frameworks** : React.js, Next.js, Node.js, Express, NestJS, React Native, TailwindCSS

**Libraries** : Material, Redux Toolkit, React Router, React Query

**Databases** : MongoDB, PostgreSQL, MySQL, DynamoDB

**Devops/Tools** : AWS, Docker, Git, Jenkins, Vercel, Argo, Linux

**Others** : Serverless Architecture, API Development, WebSockets, CI/CD

## EXPERIENCE

### Software Development Engineer 2

August 2024 - Present

Acefone

Gurugram

- Led migration to a **microservices architecture**, reducing system overhead by **85%**.
- Designed and deployed Kafka-based event system processing 500K+ daily events.
- Optimized APIs using Go and NestJS, improving response time by 40%.
- Managed AWS API Gateway for routing, authentication, and rate limiting.
- Refactored frontend with React.js and Next.js, reducing deployment time by 60%.
- Maintained Asterisk PBX, automating call flows for 100K+ daily calls.
- Built AI-powered post-call analysis system using LLMs and speech-to-text tools.
- Designed **Webhook pipelines** for asynchronous event processing.

### Software Development Engineer

September 2022 - August 2024

Orufy Technologies

Jaipur

- Monorepo setup with Turborepo and Nx for 4+ projects.
- A React Flow bot builder, speeding bot creation by 70%.
- Led a team of 5 developers.
- Streamlined email design with a drag-and-drop builder, reducing design time by 40%.
- Delivered 5+ scalable projects using **NestJS, Next.js, and Node.js**.
- Backend with server and Serverless Environments with AWS Lambdas.
- Developed 4+ plugins for Shopify and Wordpress applications.

### React.js Developer Intern

January 2022 - August 2022

Fintricity

Remote - London

- Created a Component Library with **Storybook** for 20+ reusable components.
- Migrated a 10,000+ line JavaScript codebase to TypeScript, reducing bugs by 50%.
- Implemented 10+ data visualizations using ReCharts for better analytics.
- Collaborated with a team of 7 developers to enhance project efficiency.
- Optimized application performance, increasing efficiency by 20%.

## EDUCATION

---

<b>Dr. APJ Abdul Kalam Technical University</b>	Meerut, U. P.
Master of Computer Application	August 2023 - July 2025
<b>Dev Bhoomi Uttarakhand University</b>	Dehradun, Uttarakhand
Bachelor of Computer Application	August 2020 - July 2023
<b>Vivekanand Intermediate College</b>	Almora, Uttarakhand
Intermediate	April 2019 - March 2020

## PROJECTS

---

<b>Zenodeck Connect</b>	<a href="#">Source Code</a>
<ul style="list-style-type: none"><li>• Real-time customer support chat app with multi-channel support using React.js, NestJS, and MongoDB.</li><li>• Developed an embeddable web chat widget for external websites</li><li>• Integrated WebSockets for bi-directional messaging and scalable communication.</li><li>• Used React.js for frontend and Nest.js/Node.js for backend</li><li>• Managed data with MongoDB for scalable and flexible storage</li></ul>	
<b>Webtonative</b>	
<ul style="list-style-type: none"><li>• Transformed websites into mobile apps without coding.</li><li>• Integrated payment gateways; processed 5K+ monthly transactions.</li><li>• 50K+ active international clients.</li><li>• Tech stack: Next.js, TypeScript, Firebase, Node.js.</li></ul>	
<b>E-Commerce Site</b>	<a href="#">Source Code</a>
<ul style="list-style-type: none"><li>• Responsive E-Commerce website clone using <b>Next.js</b>, <b>TypeScript</b>, <b>Tailwind CSS</b> and <b>Redux Toolkit</b>.</li><li>• Implemented authentication using NextAuth.</li><li>• Added user delivery location feature using Geolocation-DB API.</li><li>• Created CI/CD pipeline with GitHub and Vercel for automation.</li></ul>	
<b>Snappy - Chat App</b>	<a href="#">Source Code</a>
<ul style="list-style-type: none"><li>• Front-end using <b>React.js</b>, styled-components, <b>TypeScript</b>.</li><li>• Backend with <b>Node.js</b>, <b>Express</b> and MongoDB.</li><li>• Real-time chat application with 99.9% uptime using <b>WebSockets</b> (Socket.io).</li></ul>	
<b>GIF Maker</b>	<a href="#">Source Code</a>
<ul style="list-style-type: none"><li>• A gif maker web app using <b>React.js</b>.</li><li>• Backend with Node.js, Express and MongoDB.</li><li>• Used WebAssembly and FFmpeg for video processing.</li><li>• Achieved 100% processing on the client-side.</li></ul>
